

TRAIN THE TRAINER

Overview

This course will provide everything a trainer needs to design and deliver impactful training sessions. This will include how to tailor modules to meet with different personalities and learning styles; how to enhance delivery style to inspire and engage delegates and facilitation skills to encourage group participation. This course will also include filming and feedback on performance.

Who is it for?

For those individuals who are new to training and want to learn best practice and existing trainers who want to enhance their skills and learn more advanced techniques to deliver powerful and memorable training sessions.

Course content to include...

- An overview of training and its importance
- How training fits within achieving organisational and individual objectives
- How to design & deliver training to fulfil all learning styles
- Training tools & when to use them, including icebreakers, demos, exercises & props
- How to structure overall content & individual modules to keep interest & maximise learning
- How to read & use body language, tonality & language to influence at an advanced level
- Gaining group rapport and dealing with interruptions
- Designing and delivering metaphors and stories to engage delegates
- Using non-verbal cues to elicit predictable responses in the delegates
- Gaining delegate compliance and handling difficult questions & situations

By the end of the course learners will be able to...

- Design a training session from scratch that caters to all learning styles
- Use facilitation skills to encourage open discussions and group participation
- Deliver training with presence and confidence

"Thoroughly enjoyed course, got what I wanted from it - aimed just right"
